

PROFILE

Software Engineer Interns are entry-level professionals who are gaining hands-on experience in a software development company. Job responsibilities of a Software Engineer Intern are understanding client requirements, writing and testing code, helping to develop software solutions, and updating their job knowledge by using the latest development tools. Based on our collection of resumes in the field, most Software Engineer Interns should hold the following skillset: coding abilities, problem solving, teamwork, the willingness to learn new things and to follow instructions, and computer proficiency. Successful example resumes make display of a Bachelor's Degree in computer science or information technology.
